Many Things Are Meant

By many dealers who claim to
handle groceries. When they
advertise Good Groceries, no
mention is made of PRICE.
When price is mentioned
QUALITY IS OVERLOOKED.
Again, sometimes they dwell
on the virtues of a LARGE
STOCK. In this case no claim
is made in carrying FRESH
GOODS.

SAGEBRUSH OCCURRENCES

happenings in this State Cleaned
From our Nevada Ex-
changes.

Virginia City has had a few robberies
of late.
President Hays has outlined a policy
which calls for the expenditure of \$40-
000,000 in improvements on the main
line of the Southern Pacific.

The will of the late Evan Williams
was admitted to probate in the Dis-
trict Court at Carson yesterday and
the widow appointed administratrix.

Rev. W. N. Bott has completed ar-
rangements to have the railroad com-
pany furnish the citizens of Lovelock
with water from the Humboldt House,
save the Argus.

The following teachers were elected
by the Gold Hill school trustees at
the recent meeting: A. E. Baugh, Miss
Frankie Gray, Miss Fannie Brown, Miss
May Williams, Miss Carrie Roberts.

George Atcheson of Sweetwater was
kicked by a colt last week and sus-
tained severe injuries to his face. He
is now at San Francisco undergoing
treatment. The sight of one eye is de-
stroyed.

What came near to being a dou-
ble tragedy took place this morning at
the residence of Dan McQuarrie near the
Julia mine, when Mrs. McQuarrie cut
the throat of her daughter, Gerlie, in-
flicting a serious and perhaps fatal
wound, and then attempted to take her
own life in the same way.—Report.

ON THE UP GRADE.

Assessor Evans has returned from
a swing around the circle. He reports
all portions of Washoe county as being
on the up grade.

Progress is noticeable everywhere.
It is especially to be found in Verdi
where the new mill and railroad are
working wonders. The country is in
a very prosperous condition. Content-
ment and hope are the watchwords
everywhere.

IS JONES A NEVADA CITIZEN?

The District Court was in session to-
day hearing arguments of counsel in
the suit of Peters vs. Jones. The plain-
tiff seeks to have the case tried in the
United States that the defendant, Sen-
ator Jones, is not a citizen of Nevada.
The question will be decided by Judge
Mack at some future session of the
court.—Virginia Chronicle.

FACTORY CHANGES HANDS.

F. Maria has sold the Reno Mace-
roni factory on Sierra street to A. T.
Dormio who will remove the establish-
ment to Peavine street.

Mr. Dormio will make a number of
improvements and will endeavor to
keep the product of the factory up to
the high standard attained by Mr.
Maria.

RETURN COMPLIMENT.

The people of Carson are arranging
for a special train in which to come
down to the race Sunday. Our neigh-
bors appreciate the manner in which
Reno depopulated itself during carnival
week and feel like returning the com-
pliment.

TWO HUGE BUILDINGS.

Caine & Schadler have completed
the foundation for the new power
house. It will be a \$60,000 structure.
Work is progressing rapidly on the
Flanigan warehouse. Its plans call
for a building 100x150 feet.

VISIT TO HUMBOLDT.

Dr. Hitchcock has gone to Lovelock
on a tour of investigation of the na-
ture and condition of native grasses
and range feed. He will probably re-
turn to Reno before leaving for Wash-
ington.

NEXT ON THE MENU.

The management of the McKisick

from Smoky Valley. Mr. Welsh had
several pieces of ore from two different
ledges recently found by him and F. C.
Macneil. The ledges are large and
can be traced on the surface for a long
distance. Ore from both ledges has
been sent away to be tested for gold,

TARIFF AND CONSTITUTION.

Perhaps it is not generally known that tariff abuse was the main cause of the formation of our federal constitution, which was adopted in 1787. But such is the fact. The supreme power previous to that time was vested in congress, which could declare the amount of a tax but could not collect a dollar of it. All of this was reserved to the States, besides which the States reserved to themselves the right to regulate commerce and the right to tax exchanges. It was not long before high and onerous duties were exacted by many of the States for the "protection of home industry," as was argued then and is now repeated by the Republican party. States levied duties upon the production of other States crossing their borders. Wise men saw that this system could not last without destroying the prosperity of the country, so in 1786 the two States of Virginia and Maryland elected commissioners to remedy the evil from which the whole country suffered, so far at least as those two States were concerned, by removing the duties and embargoes between them. But State jealousies prevented anything being done, and finally the legislature of Virginia proposed a convention of commissioners of all of the States, which was accepted, and in 1787 they got together in convention and framed our constitution, in which it was granted the power to regulate commerce and raise revenues for the support of the government, and for no other purpose. In fact, the right to tax by tariff for revenue was allowed only after a long debate, and no mention was made of "protection to home industries." If there had been it is doubtful if the constitution would have been endorsed by a single State. The tariff proposition only obtained at all because the State interests feared the hand of the direct tax gatherer, and therefore allowed the tariff power to the general government, but only to the extent of raising revenue for the support of and to pay the debts of the government. They already had a taste of the evil results of the so called "protection." The tariff then adopted was five per cent average only, with certain luxuries at fifteen per cent.

The above is a brief statement in regard to the origin of the tariff and its purpose. How the spirits of the framers of our constitution would have rebelled if they could have foreseen the construction which has been given to their words and act! If they had dreamed of the abuses that have been perpetrated under this method of revenue production, any thing akin to or bordering on tariff duties would have been as strictly prohibited as arson, murder or treason.

WRONGFULLY ACCUSED.

It appears that ex Postmaster Snider of Tuscarora has been a greatly wronged person. He was arrested and thrown into jail for an alleged shortage of \$2,600. It now appears by an examination of his accounts at Washington that instead of being a defaulter at the time of his arrest, there was really a balance of \$60 due him by the government. The whole trouble appears to have grown out of the ignorance and ineptness of an inspector named Coyne, who made the report which caused Snider's arrest. We don't know how far, if to any extent, a postal inspector is responsible financially for his acts, but hope that the ignoramus or his superiors will have to pay the victim a good round sum for the distressful wrong inflicted upon him. In the meantime Snider has been removed from office and his successor appointed. It would be but even-handed justice for the department to fire Coyne incontinently and give Snider his place. At all events the government should punish the offender and make amends in some manner to the man who has been temporarily disgraced and deprived of his liberty.

Andrew Carnegie is reported to have told a newspaper man in London that he would give all of his millions if he could again have youth and health. And then he said: "If I could make Faust's bargain I would. I would gladly sell anything to have half my life over again."

As the devil's "wave of prosperity" is running so high that he is no longer obliged to buy what he can get for nothing, we would advise Andrew to continue hedging on his noble majesty by liberal donations for charitable purposes. We would, moreover, modestly suggest that a gift of forty or fifty thousand to Reno for a public library, would insure for him the prayer benefit and blessing of the God-fearing portion of our people, besides the gratitude and good wishes of the perhaps unrighteous majority.

Superior Judge Sloss of San Francisco has rendered a decision declaring unconstitutional the law fixing a day's labor at eight hours. That was a legal opinion, relating to the State constitution. An opinion of the California State Medical Society as to the constitutional effects upon the human body of fourteen or fifteen hours labor would probably be interesting to some of the employees on the street railway lines of San Francisco, who put in that length of time daily in the service of their corporation employers.

Mr. Bryan expresses the JOURNAL's views precisely when he says in the Commonwealth: "The identity of the Democratic candidate for President in 1904 is not yet known, but it is known that whoever he is, he will not be a Democrat nominated by Republicans for Republican purposes only."

REPUBLICANIZING THE SOUTH.

The President has lately appointed three Democrats to office in South Carolina upon the endorsement of Senator McLauren of that State. This is construed by the Salt Lake Tribune as a beginning of an attempt to build up a white Republican party in the South. To a man up a tree the President's act would appear inspired by his inability to find white or colored Republicans who are competent or honest enough to be entrusted with the places. The Tribune is doubtful of the success of the movement, as well it may be. Cleveland tried the same game, in a reverse order, in some of the strongly Republican States, with the result that while he converted no Republicans, he provoked the hostility of large numbers of Democrats by his discrimination against the members of his own party. The New England States will become Democratized ages before the South will be Republicanized by office giving or any other species of bribery, or, for that matter, anything the Republican party can offer, so long as it holds to its present creed, doctrine and course of action.

A new argument for electing United States Senators by direct vote of the people is being advanced. It is that Senators seldom secure nominations for higher offices, because they have no opportunity for directly testing their powers as public vote getters, as Governors do, from whose chair it is often an easy step to the Presidency. Governor Sadler will please make a note of this and govern himself accordingly.

Tennessee boasts of a record of six living ex-governors, and Maine has eight. Nevada, in proportion to her population, has a higher record than either. She has three, viz., Jewett W. Adams, J. H. Kinkead and Frank Bell, the latter having, as lieutenant governor, succeeded Governor Stevenson, who died some time previous to the expiration of his official term.

A meadows farmer yesterday informed the JOURNAL that the frost a couple of weeks ago nipped his potato vines so badly that not more than half a crop will be harvested. The liberal minded agriculturist, although a staunch Silver party man, assured the JOURNAL scribe that he did not hold Mr. McKinley accountable for his misfortune.

The Republican and Democratic State conventions have been held in Ohio. The former endorsed the insular policy of the administration, while the latter condemns it. Ohio is the first State to hold an election since the colonial policy of the administration was reversed, and the result will be watched with interest.

A financial writer, who isn't subsidized by the trusts, declares that business of this country is now passing through a period of emotional insanity, and warns investors to beware of the flood that has been put into the big corporation break-loose.

There will not be much stronger provocation for picnic and other outings than the present week is affording.

SAGEBRUSH OCCURRENCES

Happenings in this State gleaned from our Nevada Exchanges.

During the carnival the Carson brewery sold 12,000 gallons of beer. Thirsty crowd!

Two sheepherders and a cigarette fiend have "shuffled off this mortal coil" in Nevada within the last few days. Slowly but surely Nevada is progressing and will some day take her true position among the sisterhood of States.—Virginia Report.

A report was in circulation on Thursday evening that T. J. McMahon perished on the desert while on his way to Tonopah. Rumor stated that his horse had gotten away from him, and after endeavoring to catch it, he perished from heat.—Lincoln County Record.

A party of well known mining men, among whom are Samuel L. Jones, a brother of the Nevada Senator, A. C. Hamilton and H. C. Gorman, have closed a deal for the Kline & Wall mining claims at De Lamar. The price paid is \$50,000.

Work at the California Con. mines at the present time is looking better than they ever have. The miners report a good quantity of heavy lead ore in sight. During the week a large amount of concentrates were shipped to Salt Lake.

The last \$5000 payment due on the Mayday mine at Bristol was paid by Superintendent E. F. Freudenthal last Tuesday and is now the property of the Bristol Copper Company. Work on the company's mine is being pushed. Supplies are arriving and it will not be long until the machinery is all on the ground.—Pioche Record.

Unionville, in the foothills of the Buena Vista mountains, twenty miles south of the Central Pacific railroad, is one of the oldest mining camps in Nevada, having been located in 1860. At one time there were four quartz mills working ore taken from the mines of the district, they were all wet-crushing mills, working to save free-milling ores. The ore carrying most of its values in sulphides, a very small percentage of the contents was saved. The mines for twenty years have been operated with this free-milling method, but have been unprofitable, particularly since silver decreased in value. There is, however, an enormous quantity of ore that, with modern machinery and treatment, will pay well.

DEFENDED BY DUMB ANIMAL.

J. Steiner, an aged resident of this city, met with a serious accident near his home yesterday. He was hooked by a strange cow, sustaining a fractured rib and painful bruises. A strange circumstance attended the accident. Mr. Steiner's cries for help brought one of his own cows to the rescue. It attacked the strange cow and drove it away.

END OF FIRST TERM.

Last evening the closing exercises of the Nevada State University extension class on the Comstock was held in Virginia. Dr. Stubbs and Prof. N. E. Wilson attended. The exercises were very interesting. Prof. Dye has resigned as instructor. His successor has not yet been appointed.

WAS GREATLY IMPRESSED.

D. A. Bender of San Francisco and W. A. Kelly drove out to Wedekind City yesterday. Mr. Bender says that before he visited the mines he believed that they were being over-written, but he is now convinced that "the half has never been told."

A POOR MILLIONAIRE

Lately starved in London because he could not digest his food. Early use of Dr. King's New Life Pills would have saved him. They strengthen the stomach, aid digestion, promote assimilation, improve appetite. Price 25 cents. Money back if not satisfied. Sold by S. J. Hodgkinson.

NEEDS DISINFECTING.

The city lock-up is in a very unsanitary condition. A few bits worth of chloride of lime and carbolic acid would improve matters considerably. At present the cooler is crowded every night.

PRELIMINARY WORK.

The J. & K. tunnel is being rapidly mucked out. Superintendent Parry expects to be able to start running on the ledge in about two weeks. Two shifts will then be worked.

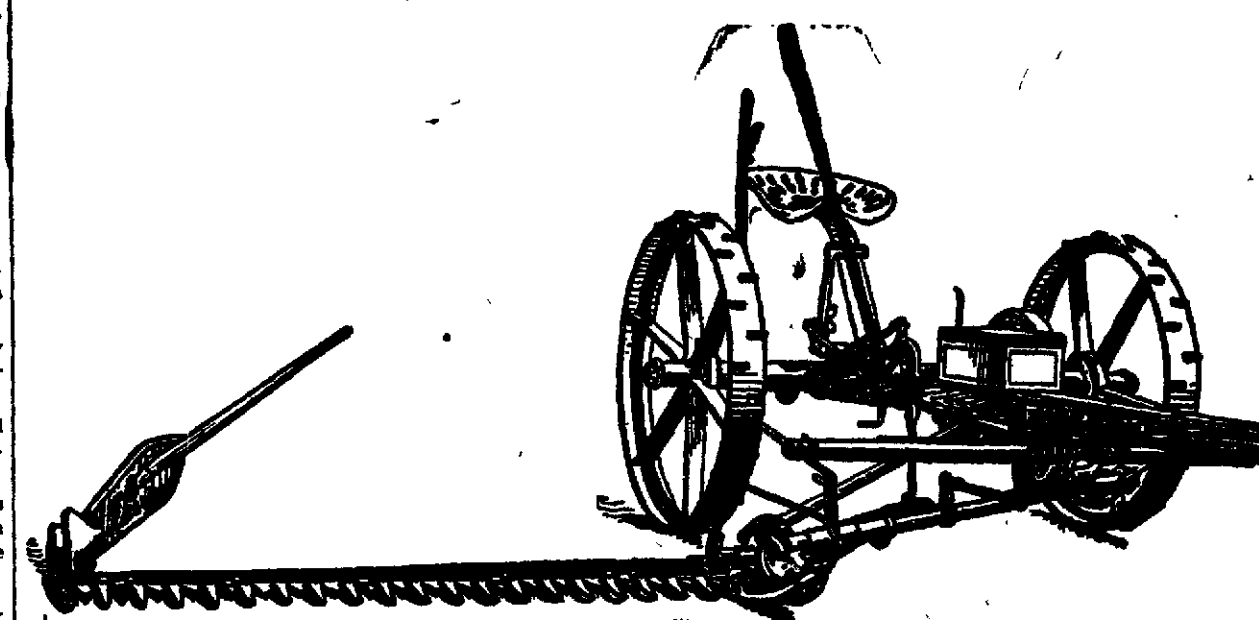

ONLY A FEW DAYS MORE.

Emrich will give 20 per cent discount on every dollar purchase. This reduction is from the actual wholesale cost. Virtually it is a discount of 50 per cent from the retail price. Call at once.

The Pioche Record says that John Barret, well known in Utah and Nevada, died suddenly at Pay on the evening of the Fourth. Deceased may be the irrepressible Johnny Barret several years ago and who located in Tuscarora after leaving here.

The Carson Carnival Committee came out \$50.25 ahead.

IT DAZZLES THE EYE.

No discovery in medicine was ever created one-quarter of the excitement that has been caused by Dr. King's New Discovery for Consumption. Its severest tests have been on hopeless victims of Consumption, Pneumonia, Hemorrhage, Pleurisy and Bronchitis, thousands of whom it has restored to perfect health. For Coughs, Colds, Asthma, Croup, Hay Fever, Hoarseness and Whooping Cough it is the quickest, surest cure in the world. It is sold by S. J. Hodgkinson who guarantees satisfaction or refund money. Large bottles 50 cents and \$1. Trial bottles free.

WHITE MAN TURNED YELLOW.

Great consternation was felt by the friends of M. A. Hogarty of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful Stomach and Liver remedy, and he writes: "After taking two bottles I was wholly cured." A trial proves its matchless merit for all Stomach, Liver and Kidney troubles. Only 50 cents. Sold by S. J. Hodgkinson.
